

The image shows a red and black Vactron CVX925 Ducted Vacuum System. The main unit is a tall, cylindrical canister with a red top and bottom section and a black middle section. It has a black handle on the side and a black strap across the front. A black hose is connected to the top, and a black floor nozzle is shown in the foreground. The background is a light-colored floor.

## Vactron CVX925 Ducted Vacuum System (Hybrid-Bag or Bagless)

### INSTALLATION RECOMMENDATIONS

Size of Building up to Squares	40
Number of Inlet Points	4
Working Hose length –	up to metres 15
Hide-A-Hose Compatible:	No

### MOTOR SPECIFICATIONS

Peripheral By-pass discharge-	Yes
Turbine Stages-	2
Double ball bearings-	Yes
Diameter of Motor mm-	145
Air Watts-	660
Airflow l/s (max.)-	57
Sealed Vacuum mm H2O-	3350
RPM (max)	30200
Label Rated Electrical Watts-	1800
Control Circuit 12 V DC-	Yes
Control Current 100mA-	Yes
Nominal Voltage 240V AC-	Yes

### POWER UNIT PHYSICAL SPECIFICATIONS

Overall Height (mm)	1000
Overall Diameter (mm)	410
Hybrid Tri Flow Filtration Compatible System-	Yes
Cyclonic Filtration with Hepa Filter-	Yes
Silencer for Exhaust-	Yes
Left & Right ducting entry points-	Yes
Dirt Canister port view-	Yes
Dirt Canister liters-	25
Wall Mounting of Power Unit-	Yes

### AUTHORITY/ APPROVAL/ ORIGIN

"C" Tick Compliance EMC –	AS/NZS 1044
---------------------------	-------------

### FEATURE

- 1800W Commercial grade peripheral discharge motor
- High-capacity dirt canister with quick release latches- only needs to be emptied a few times each year
- On-board garage/utility valve with on/off switch allows convenient cleaning directly from the vacuum.
- 2 Inlet openings – one on the left and one on the right – this allows you to mount the unit in almost any space and connect your existing pipe to the unit easily
- Hybrid Tri Flow Filtration System for 3 Cleaning options (Bag, Bagless, Self-Cleaning)
- Wall-mount bracket for simple, safe and secure mounting
- An integrated silencer is included which connects to the exhaust vent of the motor – this reduces the air flow noise down which allows for a more comfortable operation inside your home.
- True HEPA filtration
- 2 Year EVS Warranty
