## CVX950 "SMART" Ducted Vacuum System (Hybrid-Bag or Bagless)

### FEATURE

- Genuine Ametek™ Motor for strong and long lasting vacuum power
- SMART LCD display provides information on performance, maintenance and use
- High-capacity dirt canister with quick release latches- only needs to be emptied a few times each year
- On-board garage/utility valve with on/off switch allows convenient cleaning directly from the vacuum.
- 2 Inlet openings – one on the left and one on the right – this allows you to mount the unit in almost any space and connect your existing pipe to the unit easily
- Hybrid Tri Flow Filtration System for 3 Cleaning options (Bag, Bagless, Self-Cleaning)
- Wall-mount bracket for simple, safe and secure mounting
- An integrated silencer is included which connects to the exhaust vent of the motor – this reduces the air flow noise down which allows for a more comfortable operation inside your home.
- True HEPA filtration
- 2 Year EVS Warranty

### INSTALLATION RECOMMENDATIONS

Size of Building up to Squares-	50
Number of Inlet Points-	5
Working Hose length –	up to metres 15
Hide-A-Hose Compatible:	Yes

### MOTOR SPECIFICATIONS

Peripheral By-pass discharge-	Yes
Turbine Stages-	2
Double ball bearings-	Yes
Diameter of Motor mm-	145
Air Watts-	710
Airflow l/s (max.)-	59
Sealed Vacuum mm H2O-	3620
RPM (max)	28900
Label Rated Electrical Watts-	1700
Control Circuit 12 V DC-	Yes
Control Current 100mA-	Yes
Nominal Voltage 240V AC-	Yes

### POWER UNIT PHYSICAL SPECIFICATIONS

Overall Height (mm)	1000
Overall Diameter (mm)	410
Hybrid Tri Flow Filtration Compatible System-	Yes
Cyclonic Filtration with Hepa Filter-	Yes
Silencer for Exhaust-	Yes
Left & Right ducting entry points-	Yes
Dirt Canister port view-	Yes
Dirt Canister liters-	25
Wall Mounting of Power Unit-	Yes

### AUTHORITY/ APPROVAL/ ORIGIN

"C" Tick Compliance EMC –	AS/NZS 1044
---------------------------	-------------

This premium model Incorporates an advanced interactive digital display to provide up-to-date information on the condition of your ducted vacuum with diagnostic capabilities such as;

- Power Level
- Filter Cleanliness
- Thermal Protection
- Timer Indicator
- Bin Full Indicator
- Service Required
