

# Platinum

**HD INTERCOM**  
combines innovative features with  
precision engineering

The Platinum video intercom is a cost-effective premium door entry solution providing HD colour resolution and modern monitor design with touch screen controls. The intuitive GUI allows for easy navigation of features such as internal communication, recording and monitoring of CCTV cameras.

The metal IP65 rated 2MP door camera offers superior night vision due to the Crystal IR filters that enhance color during the day and improve brightness at night. It offers a remarkable 120-degree wide viewing angles both vertically and horizontally to help identify and clearly see who is at the front door.

The keypad front door model allows you to open the gate with your very own personal password using the built-in keypad or with an RFID card reader which allows you to scan registered

cards/tags for quick, secure access. No more worrying about misplaced keys or lockouts!

Our unique system gives you the ability to view, hear, and speak with anyone at your doorstep using your mobile or tablet thanks to the built in WIFI function. You can be out the back entertaining in the garden or upstairs looking after the kids and still be able to see, talk or release the front gate or door using the TUYA App. In case you missed a visitor, the monitor has a SD Card memory function which can store and take snapshots or record based on advanced motion detection or when a doorbell press is triggered.

The Platinum intercom is the perfect 4 wire system to all modern homes for security and lifestyle.

Touch Screen

Mobile Monitoring

Motion Detection

1080P

Snapshot/Video

2 Way Talk

Electronic Lock Compatible

6 Monitors

### 7" LCD HD MONITOR

Crystal clear 1024x880 HD display with touch screen and easy to follow GUI menu system.

### EXPANDABLE SYSTEM

The monitor can support 6 monitors and 2x front door stations. All the monitors can see, hear, speak to the outdoor camera and unlock the door. Electronic locks can be added to give you more comprehensive protection for your home.

### INTERCOMMUNICATION & CALL TRANSFER

When someone presses the doorbell, all the monitors will ring, you can answer and unlock the door with each monitor. All the monitors support call transfer or internal talk between indoor monitors.

### WEATHER RESISTANT DOOR CAMERA

Front door housing made from an Anti-oxidation aluminium alloy panel that provides a comprehensive IP65 rating making it rainproof, dustproof and even anti-vandal proof.

### SUPERIOR IR NIGHTVISION WITH 2MP (1080P) WIDE ANGLE CAMERA

A 2MP (FULL HD) resolution wide angle camera (120°) comes equipped with the front door unit. It is built with IR CUT and IR LEDS for better night vision. There are two crystal IR filters, one dedicated to color correction during the day while the other is used for enhancing the brightness at night.

### MULTI LANGUAGE OSD MENU

The System supports English, Russian, French, Spanish, German and Chinese.

### ANSWER, TALK, MONITOR & RECORD THE DOOR USING THE TUYA APP

You can see, hear and speak to anyone at the front of your door from anywhere using the TUYA app. You can even Leave a Message so when a visitor comes by and you are not home, the call panel automatically prompts the visitor to leave a message after 30s-120s of ringing. The master unit then records the file and saves it for later playback.

### INTELLIGENT MOTION AND MEMORY RECORDING WITH MICRO SD CARD & TUYA CLOUD

When a motion detect or doorbell press is triggered, the device will start a recording or capture a picture and save them in the Micro SD card or onto the TUYA smart home app cloud to protect your home every day. If CCTV cameras & sensors are connected to the system, an alarm trigger can activate recording to the MicroSD card.

### 4 WIRE SYSTEM

Easy to install and reliable 4 wire system. CAT5e up to 50m.

### DOOR RELEASE FUNCTION

Flexible door release options. 12VDC output, N/O or N/C contacts.

### CCTV CAMERA AND SENSOR CONNECTION

Connect max 2 CCTV cameras which can trigger recording if MicroSD card is fitted.\* CCTV cameras must be AHD or CVBS.
