PLATINUM
HIGH DEFINITION COLOUR VIDEO INTERCOM

AUDIO VISUAL SECURITY MONITORING

The Platinum Video Intercom is designed to fit in with modern designed homes with the reliability to last for many years. It allows you the ability to see who's at the door before you open it. It also includes 2-way audio so you talk to whoever is at the door without having to take the risk of opening the door to a stranger. It offers easy 90 degree viewing at wide angles both vertical and horizontal.

Easy to identify and use touch buttons makes it simple to operate allowing identification and communication with visitors at locked doors. The electric lock can be operated from the Platinum Monitor allowing you to release the lock easily from any monitor throughout the house providing you with that extra level of security.

The Platinum is a 4-wire system that is simple to install using 4 or 6 core security cable or standard Cat5E or Cat6.
