

Solution 2000 / 3000 Control Panel

www.boschsecurity.com

BOSCH
Invented for life

- ▶ 8/16 Fully Programmable Zones
- ▶ 41 Codes – 1 Installers, 20 User Codes, 20 RF Keyfobs
- ▶ 16 Wireless Devices (on Solution 3000)
- ▶ Partitionable into 2 Separate Areas
- ▶ STAY / AWAY Arming Options

The Solution 2000 and Solution 3000 are new generation alarm control panels for the Australian & New Zealand residential & commercial markets.

System overview

Supporting up to 8 fully programmable zones on the Solution 2000 and 16 fully programmable zones on the Solution 3000, this range of intrusion panels is suitable for any home, and even some commercial premises.

With support for up to four keypads on both panels and the ability to be split into two separate partitions on the Solution 3000, you have the flexibility of one security system that can act as two.

Functions

User Interfaces

The Solution 2000 and 3000 control panels have the variety of keypad options, including LCD Icon, LCD Alphanumeric, and various touchscreen options that are simple to use.

Wireless

The Solution 2000 supports the WE800EV2 wireless receiver for wireless keyfob control, while the Solution

3000 supports both the WE800EV2 and the option to integrate with the Bosch RADION range of wireless transmitters.

Communication

Solution 2000 and 3000 also have available a range of communications extension modules that integrate directly with the panel and provide options such as mobile communications via the GSM & GPRS networks, along with IP reporting through the internet. The IP module includes CSV-IP communications technology and makes the panels fully NBN-ready with the majority of monitoring centres in Australia & New Zealand able to handle the IP communications from the Solution 2000 and 3000.

Remote Security Control (RSC) app

The Solution 2000 and 3000 control panels support the Bosch Remote Security Control (RSC) app, enabling convenient system operation from an iPhone, iPad or iPod Touch, including arming / disarming of the system and control of connected devices, such as lighting and A/C.

Certifications and approvals

Australia	RCM
New Zealand	Tele-permit
Europe	PCE – EN61000-3:2007/ A1:2011 EN501030-4:2011AS/CA S002:2010

Technical specifications**Power Requirements**

Primary	250 VAC / 18 VAC at 1.3A supplied by TF008 Plug Pack
Secondary	12 VDC, 6.5Ah from rechargeable sealed lead/acid battery

Communications

Communications	CID, SIA, SMS, Email*, Domestic Dialling, CSV-IP *Requires B426 IP Communications Module or B450 Universal Communications Module
----------------	---

Environmental Considerations

Temperature	0° to +45°C
Relative Humidity	10% to 95% non-condensing

Enclosure

Dimensions (H x W x D) (packed in carton)	306 x 262 x 84mm
Weight	2.5kg
Warranty	3 years
