PRODUCT DATA AND APPLICATION SHEET

PRODUCT NAME   **Nylon Glands**

PRODUCT CODE   TGN16, TGN20, TGN25,
TGN32, TGN40, TGN50, TGN63

DESCRIPTION   IP68 Nylon Gland

FEATURES

- Prestigious IP68 rating
- Innovative 'Camera Shutter' principle securing the cable
- Superior cable range with each range
- Nylon 6.6
- Effective plastic inserts to ensure complete insulation
- High grade Neoprene seal ensuring comprehensive tightness
- Implementation of metric thread to satisfy Australian requirements
- Locknuts supplied with glands for consumer convenience

APPLICATIONS

- This Product is recommended for residential and commercial environments

INSTALLATION

- Pass the cable through the assembled gland and tighten gland nut until cable is secured. (No need to disassemble the gland)
- Suitable for unarmored PVC, XLPE and other synthetic cables
